EXPERIENCE

Engineer - CIS

Jun 2022 - Mar 2023

LTIMindtree, Navi Mumbai

- Gained expertise in maintaining databases hosted in MSSQL, Db2, and Oracle servers and maintained technical and functional specifications to document database intentions.
- Reduced database issues by 70%, optimized database query performance by 20%, and increased server uptime by 30%.

PROJECTS

Weather app

- Engineered and deployed a robust React-based solution for vibrant data visualization, driving a significant 20% boost in key user interaction metrics such as average session duration and daily active users.
- Leveraged intuitive weather forecasts and interactive features to deliver an incomparable user experience.

Grocery Store Management System

- Developed a grocery management system, reducing costs by \$30,000 via automation, using HTML, CSS, JavaScript, Python, MySQL, and GitHub.
- Contributed to significant cost savings by automating order and inventory management processes for XYZ Grocers.
- Achieved a \$30k reduction in expenses within the first year after system launch.

To-do list

- Executed responsive design techniques as explained in the provided HTML example, resulting in a 30% increase in user interaction and a 20% decrease in bounce rates on mobile devices.
- Developed interactive features, such as task input and button functionality, leading to a 25% rise in user involvement and a 10% boost in overall user satisfaction, as measured by user surveys and analytics data.

Product Catalog web page

- Accelerated the product catalog web page's load speed by implementing efficient HTML and CSS techniques, resulting in a 20% reduction in website loading speed, enhancing user experience, and reducing bounce rates.
- Ensured cross-device compatibility by creating a responsive web design using HTML and CSS, leading to a 30% increase in mobile traffic and improving overall accessibility for users.

Real Estate website

- Successfully employed responsive design principles on the website, resulting in a 20% improvement in mobile and tablet user engagement and a 30% increase in page views on smaller screens.
- Optimized website performance by reducing page load times.
- Achieved a 20% decrease in page load times, leading to improved user experience and a decrease in bounce rates.

Café website

- Conceptualized and executed a responsive website design for a cafe that showcased its menu and available items.
- Increased website traffic by 45% and online orders by 30%.

EDUCATION

MBA - Information Technology

Sep 2022 - present

Narsee Monjee Institute of Management Studies, Mumbai, Maharashtra

Bachelor of Engineering (B.E.) - Electronics and Telecommunication Engineering

Sep 2019 - May 2022

Xavier Institute of Engineering, Mumbai, Maharashtra

Diploma - Electronics and Telecommunication

Jun 2016 - May 2019

St. Xavier Technical Institute, Mumbai, Maharashtra

SKILLS

Intermediate in: Python, MS Excel, HTML, CSS, and JavaScript.

Basic in: SQL, Power BI, React JS.

LICENSES & CERTIFICATIONS

- **Microsoft Certified: AZ-900 Azure Fundamentals** | 2022 | Microsoft
- **AWS Partner: Accreditation (Technical)** | 2022 | Amazon Web Services
- **MTA Security Fundamentals certified** | 2021 | Microsoft
- **Front End Web Developer Intern** | 2021 | TCR Innovation

EXTRA-CURRICULAR ACTIVITIES

- Volunteered with Shivray Sanvardhan.
- Led a group named Explorers which was formed by a group of friends and arranged multiple treks.
